My dad told my sister and me that we could get ice cream after we pick up our things in our room. We just love ice cream! After we have dinner, my sister helps me pick up our things. She has just as many things on her side of the room as I do. We are fast at picking up our things after dinner just so we can go get ice cream with our dad! We have just two things left to put away. My dad tells us it is time to get ice cream. We will just pick up our last two things after we eat ice cream!
